Feel every detail

With advanced signal processing and audio reproduction technology, H2 provides a lifelike performance across the full range of sound especially the smooth bass, delivering a powerful but exquisite listening experience. Everything sounds crisp, rich, and true, you will get every detail.

surroundings

Imagine you are in a noisy office, a loud street, or a bustling shopping mall, you just want to be at one with your thoughts. That's when our proprietary noise reducing technology stands out, to keep the background noise to a whisper, what you should do is to close your eyes enjoying music.

Always enjoy, on and on

It is impressive that H2 provides up to 1000 hours of standby time, up to 40 hours talk time and about 40 hours of music playback. You can fully enjoy the music you love, or the simple serenity you pursue, for a long flight or an expected travel.
